

District Director Spring Meeting Report

Prepared by Lindsay Horner
Spring 2021

Hello District Four!

I hope everyone is keeping safe and still keeping busy during this uncertainty.

As you may or may not know, back in October 2020, there was a vacant District Director role that needed to be filled. I didn't really plan on taking on the role until Andrew approached me in November and told me all about the great opportunities this role provides each District Director. Of course I had to say yes!

Since taking on this role, I have been getting to know all of your great fairs and the communities that you are all a part of! We may be meeting virtually but I still enjoy my time with each of your Fairs and Agricultural Societies.

Now what have I been up too since November? Well, with the help of Andrew and Matt Garwood from District 5, I have put forward a proposal for a District Four Fair Ambassador Program for our Ambassadors to participate in each year. Through this District Fair Ambassador program, it is my hopes that this will help our Fair Ambassadors continue to gain knowledge and improve on their skill set and prepare them for the Canadian National Exhibition (CNE) when our Ambassadors are eventually able to attend the CNE's Ambassador of the Fairs program. This has been one of my main goals since coming in to this role, as I know how important our Fair Ambassador programs are for the youth in our community. As a former Fair Ambassador in District 4, it is important that we spread the educate our communities about agriculture and of course, bridging the gap between urban and rural communities!

It's been a busy year for each and every one of us, especially during these times of uncertainty! I look forward to continue working with everyone in District 4 for the rest of the year!

Looking forward to what we have in store of our Annual General Meeting come October 2021!

Lindsay Horner
District 4 Director
